

If today you hear his voice, harden not your hearts.
(psalm 95)

We go to church to encounter God. We do not pretend to be perfect. If we were, we would not need to seek God by going to Church and trying to follow his ways

But we go to Church and seek God in order to continually "find his face" At this time of Lent which is fast racing to its end, we are called to "hearken to his call when we hear his voice"

In what specific areas do I hear his voice in my life?
What is this Lent 2021 actually calling me to change in me? In what ways can I be better to serve God and humanity?
